

Experience VELUS JET® for yourself
Hydro-jet massage near your!

VELUS JET®
Hydro-Jet Massage

The concept

Water with a temperature of 18-40 °C is projected to the underside of a natural rubber sheet at a pressure between 0.5 bar and 7.4 bar and with uniform motions, thereby massaging the entire body along different directions of movement. The user can select from a wide range of different massage types.

Operation

A VELUS JET® hydro-jet massage can be adapted perfectly to your body and your specific requirements. You can set your body height as well as the intensity and speed of the massage with a few taps on the screen thanks to an intuitive and easy-to-use interface. You will feel perfectly comfortable throughout the treatment and experience deep relaxation that travels through your entire body!

The advantages

Enjoying an exclusive VELUS JET® hydro-jet massage does not require you to change clothes or take a shower afterwards. You simply lie down and relax fully clothed on the VELUS JET® while your entire body is given a massage by a warm jet of water. Since the treatment is gentle on your circulation, your body will not need a long night's rest to recover, either.

What is VELUS JET® hydro-jet massage?

Imagine you are floating in total comfort on water that has been warmed up to a pleasant temperature while being massaged by invisible hands! You can feel how a warm jet of water is kneading your tense muscles before smoothing them out gently. And the best part is: You do not even have to change clothes and will not even get wet!

Equipped with one-of-a-kind 2-pump technology, VELUS JET® is the only dry water massage bed that comes with individually adjustable jets, allowing for a large variety of massage types that come as close to a manually administered massage as can be!

Proven to be highly effective in official studies, VELUSJET® truly shines when it comes to prophylactic relaxation massages as well as medical applications that target a specific area.

Would you like to enjoy this experience for yourself? Contact us, and we will treat you to the massage of your dreams!

In what cases will VELUS JET® hydro-jet massage help?

The beneficial therapeutic and prophylactic effect of a VELUS JET® hydro-jet massage can be exploited for a large variety of applications including

- Back and joint pain
- Muscle tensions (myogeloses)
- Cervical spine, thoracic spine and lumbar disc syndrome
- Cervical migraine
- Muscular imbalances and fatigues
- Vegetative dystonia
- Stress pathologies & states of exhaustion
- Minor forms of fibromyalgia
- Non-inflammatory, rheumatic diseases

This type of massage will also stimulate your body's defences and help prevent chronic diseases.

Relax and give your health a welcome boost at the same time – VELUS JET® makes it possible!

The effect of a VELUS JET® hydro-jet massage

- Improved circulation in muscles, skin and connective tissue
- Regulation of muscle tone
- Joint relief
- Support of the body's own discharge functions
- Boost to your immune system
- Tightening of skin and connective tissue
